

We wish to call especial attention of Masters of Granges to the fact that in sending us their address, it is of the utmost importance, to us and to them, that the postoffice nearest be explicitly given. We have names on our books, and points to which the paper is ordered to be sent, and no such postoffices exist. We trust our friends will be more careful in this respect in the future.

Local Intelligence.

We learn that the United States Supreme Court, in the case of Lapsley, vs. McPhail, gave a decision in favor of Lapsley recently. The land in controversy embraces the greater part of East Waco.

The weather was excessively hot yesterday and the overclouded heavens gave promise of rain in abundance. The crop needs it sadly.

Busses will leave the McClelland House next for Proctor Springs, to carry visitors to the Fete Champetre.

We learn that Loyd Coleman, living on Bee House, Coryell county, shot his wife last Friday morning, which proved fatal on Saturday. They had been at a dancing party Thursday night, and the atrocious crime was committed while on the way home. The miscreant has been arrested and is now in jail at Gatesville.

PERSONAL.—Mr. W. S. Marshall, Secretary of Pleasant Hill Grange, paid us a visit yesterday. He represents the crops as looking well. Wheat he estimates at a half-ton. Corn is a good stand, and cotton coming up finely. All are in good spirits.

Marshall Winn, traveling agent and special correspondent of "Our Home Journal," is in the city. It is a first-rate agricultural and family paper, terms \$3.00 a year.

We were delighted to meet Mr. J. J. Barton, of that excellent paper, the New Orleans Picayune, in town yesterday. Barton is a clever youth, and immensely popular in Texas.

We are glad to welcome Mr. H. S. Rogers and Mr. A. Wood, both of Coryell county. We are always glad to see our frontier friends, and extend a cordial invitation to visit us when in the city.

The next feature of the EXAMINER is duly appreciated by our city patrons.

The Waco delegation to the State Fair will be a very large one.

The night force of the EXAMINER are especially indebted to that prince of reporters, Mr. James Leavitt, of the Lady Gay Restaurant, for refreshments.

From a gentleman just down from Hamilton we learn that corn, cotton and wheat prospects are very good, and the people, in consequence, in fine spirits. The District Court was in session last week and a great deal of business dispatched. The people think that the recent "address" has stirred Judge Osterhout up a little. It is our opinion that a little stirring was necessary.

Remember the great sale of the furniture comes off at Jack Pierce's this morning. We went over yesterday to look through it, and are constrained to say it is by far the handsomest we have seen in the State, and it is going cheap. The ladies will have no other or better chance to supply themselves with handsome bracelets, sets, silk velvet sets, hair covered sets, easy chairs of the most elegant styles, lounges and sofas, side boards, chamber sets, invalid chairs, and indeed, everything, both ornamental and useful. It is well worth the trouble to see, whether one purchases or not. Attend, by all means, at 10 o'clock this morning.

Some unimportant cases were tried in the Criminal court yesterday. Not of sufficient importance to report.

MACHINERY.—The attention of planters and others interested is especially invited to the advertisement of Messrs. N. H. Conger & Co., dealers in farming implements and all kinds of labor-saving machinery. Practical farmers themselves, the members of the firm are well acquainted with the wants of that important class of our population, and in the course of their business in this city have contributed no little to the development of the agricultural interests of the country by the introduction of a good and useful class of labor-saving machinery.

Of all the engines yet before the public, the Bookwalter, for which the house are agents, appears to be at once the cheapest and the best. The "wind mill" too, which has long been regarded as a sort of stamping joke, has since introduced by this firm fully demonstrated its practical utility in many instances in this portion of the State—notably, the nail on one of the suspension bridge towers whereby the city reservoir is kept supplied from the Spring below. J. T. East King, who has one in successful operation, whereby his elegant grounds are irrigated, and playing fountain, and residence from tower to base supplied with water and all, at the least imaginable expense. The Messrs. Conger have been generally successful in the introduction of other labor-saving machines; and we repeat that being practical farmers, they "know how it is themselves" and have fully prepared themselves to supply the wants of farmers on the most reasonable terms.

A gentle man from the Cow House country reports that the horse thieves who were arrested in that neighborhood, the other day, an account of which we published, broke jail that same night, and hung themselves. It is astonishing how much these rogues are disposed towards suicide. It was a rash act and is heartily condemned by the law abiding citizens of the frontier.

Texas Agricultural, Horticultural, Mechanical and Industrial Association.

WACO, May 11.
The Board of Directors met last evening at 8 o'clock, at the call of the President Present—N. H. Conger, President; J. W. Speight, Vice-President; Wiley Jones, Secretary; A. Wheeler and Sanford Johnson.

On motion, the following resolution was unanimously adopted:

Resolved, That the President of the Association be, and is, hereby authorized to employ one or more agents to canvass and solicit subscriptions of stock for this company.

Ordered.—That any three members of this Board, in addition to the committee heretofore appointed for the purpose, be, and they are, hereby authorized to close contracts with and take deeds from H. L. Taylor, Mrs. Blocker, Mr. Stanford and Mr. Revere, according to their written proposals, for the necessary Fair Grounds for the Association (embracing about 60 acres) and that they be authorized to make all necessary surveys.

Ordered: That we hold our first annual fair, commencing on the 15th of September, 1874; that Mr. Theo. Noel be appointed our general advertising agent, and that one thousand suitable cards, for distribution, be at once published at a cost not to exceed five dollars.

On motion a committee consisting of the President and Messrs. Johnson & Wheeler were appointed to invite and receive proposals for furnishing lumber, building fence and making other necessary improvements on the Fair Grounds.

On motion, adjourned, to the call of the President.

N. H. CONGER, President.

MARRIED.

GRIFFIE ROBERTSON—Married on Sunday, 10th inst., at the Presbyterian Church, Second street, by Rev. S. A. King. Mr. Romuald Grimmick and Miss Mary M. Romuald, all of Waco.

Thanks for a minificent remembrance in the way of wine and cake, the latter made by the fair bride herself; and "may they live long and prosper!"

The Foremost Tonic of the Age.

A new painless tooth was provided for the sick, whose hideous disease was deemed to be the standard of America. For nearly a quarter of a century this powerful and gentle antidote to disease, regulating the secretions, increasing the nervous vigor of the system, cheering the spirits, arresting premature decay, and not only prolonging life, but adding value to it by putting thousands of years in a condition to enjoy it. No volume ever published would be large enough to contain history of the cases of dropsy, constipation, biliousness, intermitent fever, nervous debility and mental and physical prostration cured by this great vegetable invigorizer, which not only restores, but protects health from danger in the most unhealthy districts.

Dr. B. C. Drury resumes the practice of his profession; office at Rivier's drug store, residence at Col. M. Johnson's, rear of Marshall's Early's store on Franklin street.

PLANT'S FAVORITE FLOUR.

One hundred barrels direct from St. Louis Mills, just received by MARSHALL & EARLY.

IMPORTANT NOTICE.—For several days past we have noticed immense cases of dry goods packed up before the mammoth establishment of S. Lyons & Cohn. Notwithstanding this, we were not prepared for the splendid show of ladies dress goods, boots and shoes corsets, fans, embroideries, lace, collarines, kid gloves, and, in fact, every item to be found in a first class metropolitan store. They do a large business, which is constantly increasing. Such enterprising men are a credit and advantage to any community. Their store is the favorite resort of the beauty and fashion of the city. LUCKETT'S LINIMENT—LIVING WITH NECESSITY.

BLUFF RIDGE, Falls County Texas, August 16, 1873.

M. S. M. Lockland:

Dear Sir—I have been sorely afflicted with Rheumatism for several years, so much so that at times I have not been able to walk without the greatest pain for two and three months together. I have tried every remedy, and been attended on by several good physicians, but have never experienced any relief until I was induced to try "Luckett's Liniment." After using three bottles I find myself entirely well, and I cheerfully give this to the public, hoping that others may see this and profit by my experience, and speedily seek relief in this truly wonderful medicine.
